- 
- Meeting called to order: 6:15 PM
  - 1/21/2020 Minutes Approved (1-Pornbeck, 2- Foster, unanimous)
  - Presentations
    - **Police Department: Chief Zikuski**
      - Overall problems and concerns:
      - The problems with placing cameras in parks is that the trees block the camera view
      - They would need more funds to sustain more programs like the one they are currently doing at the Boys & Girls Club (They do the program 3X a week)
      - They also need increase lighting in certain areas
      - They use to place cameras on the Nyseg poles but they aren't allowed to anymore which is why its so expensive now to place the cameras.
    - **Department of Public Works: Bernice St. Clair**
      - They are responsible for paving the roads. The paving is contracted out but they have their own milling machines. To figure out what roads to pave an intern goes block to block using software that tells them the issues w/ the area. They also utilize complaints and suggestions from people.
      - Debra Recommended: getting an intern to survey & study the lighting issues around the city to help solve the issues the Police Department has w/ lighting.
    - **Housing and Community Development: Stephen Carson**
  - **Other Suggestions**
    - *JoAnne Recommended:* Having a public service announcement to let people know about the things going on in or with the community they may not be aware of.
    - *Karl Recommended:* Having a coordinated entry plan; creating some sort of way to develop a list among the different agencies
  - Meeting adjourned 7:39 PM (1-Pornbeck, 2-Brown, unanimous)
