RE: Veto — Resolution 015-28, A Resolution authorizing the Mayor to enter into an agreement with NYSDOT to replace a traffic signal at the Exchange St Bridge

I have vetoed Introductory Resolution 15-28 as amended. The essence of the legislation is the City's agreement with the New York State Department of Transportation (NYSDOT) to accept the responsibility to energize and maintain the new traffic signal at Exchange St/Rte 363, after installation by the NYSDOT and acceptance by the City.

While it is my understanding that the NYSDOT does not intend to install the new traffic signal until after the Exchange Street Bridge project is complete in 2015; the amendment to the legislation prohibiting the NYSDOT from installing the traffic light at a possible different time is not acceptable.

Construction schedules can change. If the Exchange Street Bridge project is delayed or the traffic light installation moved up, the installation of the traffic light should not be prohibited by the amended legislation.

Sincerely,

Richard C. David
Mayor
